### *About Mary Ann ...*

Mary Ann was motivated to begin this special service at a very reduced rate over her other services after reading an article in the N.Y. Times about a 93 year old gentleman who was bilked out of his money by a telephone scam.

The thieves posed as government agents and after gaining his trust were able to lure his personal information out of him and empty his bank account. When interviewed by the reporter, the gentlemen said that it wasn't so much about the money, but what he really missed was the phone calls. He said he doesn't get to talk much to other people and they seemed so interested in his stories.

Mary Ann has extended a free once a week telephone service to this gentleman.
